PROFESSIONAL EXPERIENCE

Shopify Product Listing & Store Manager | Sophia Santos | Freelance | Sep 2025 – Mar 2026

- Uploaded, optimized, and maintained 100+ product listings for an international lifestyle brand.
- Managed collections, pricing, inventory, order processing, customer inquiries, and seasonal promotional campaigns.

School Executive Assistant | Mrs. Cherry Paeldilan | Full-Time | Jun 2025 – Mar 2026

- Prepared digital documents, reports, memoranda, and presentations using Google Workspace and Microsoft 365.
- Managed schedules, coordinated meetings, documented meeting minutes, and tracked assigned tasks.

Amazon Virtual Assistant | Ryan Bautista | Freelance | Mar 2025 – Aug 2025

- Managed Amazon Seller Central operations across 15+ ASINs, including listing creation, Helium 10 optimization, account health monitoring, inventory management, competitor pricing analysis, and listing compliance.
- Maintained a 100% customer message response rate and zero account health incidents during the engagement.

Executive Virtual Assistant | Daniel Cruz | Freelance | Jan 2025 – Aug 2025

- Managed executive calendars, scheduled meetings, organized confidential documents, and handled professional email communications.
- Prepared meeting summaries and streamlined scheduling and project-tracking workflows.

General Virtual Assistant | Michael Reyes | Freelance | Jul 2025 – Dec 2025

- Handled email management, calendar scheduling, data entry, online research, and document organization for a digital services entrepreneur.
- Coordinated meetings and managed social media scheduling.

School Technical & ICT Support | Jemar Vertera | Full-Time | Jan 2025 – Jun 2025

- Resolved software and connectivity issues and provided remote support using TeamViewer and AnyDesk.
- Managed shared files through Google Drive and handled document preparation and data organization.

E-Commerce Virtual Assistant | Jason Navarro | Freelance | Jul 2024 – Dec 2024

- Provided cross-platform Amazon and Shopify support covering product listings, inventory, order processing, and product databases.
- Built Google Sheets tracking dashboards for sales reporting across both platforms.

E-Commerce Web Developer | Ronald Cuevas | Freelance | Jul 2024 – Dec 2024

- Designed and built a responsive e-commerce website with product catalog, ordering workflows, and transaction systems.
- Managed the development lifecycle from planning through deployment.

Freelance Photographer & Photo Editor | Imprints Diaries | Aug 2023 – Aug 2024

- Captured and edited event, portrait, and digital-content photography.
- Used Adobe Photoshop and Lightroom to produce polished image collections within deadlines.

SELECTED ECOMMERCE PROJECTS

Amazon Online Arbitrage Product Research — Submitted 200+ verified OA leads using an 8-point evaluation system; screened products with Keepa 10-pattern analysis and SellerAmp SAS profitability checks; maintained Google Sheets tracking.

Amazon PPC Optimization Framework — Built a 6-bucket search-term classification framework with placement analysis, dayparting, portfolio bidding, TACoS monitoring, and ASP × ACoS × CVR bidding. Portfolio materials report potential ACoS reductions of 8–14 points within 60 days.

AI Ecommerce Automation — Built 6 live n8n/Make.com workflows including an AI Daily Store Report, inventory alerts, PPC search-term analyzer, TikTok creator outreach, weekly PPC reporting, and a multi-platform dashboard. Portfolio materials report 20–60 hours/month of potential time savings.

Klaviyo Email Marketing — Built 5 core flows/campaigns: Welcome, Abandoned Cart Recovery, Post-Purchase, Win-Back, and Black Friday, plus HTML templates and SPF/DKIM/DMARC deliverability work. Portfolio materials report $14K–$25K/month in recovered Klaviyo revenue.
